# Our EOS STORY

A few years ago our founder went to a cosmetic outlet to look for natural shampoo. She saw that the sales ladies have acne scars. She asked them “do you have any products for acne that at the same time prevents scar formation as well as banishes scars?” They told her there is no such thing in the market. She went to all the international cosmetic skincare outlets and they gave the same reply. She went to pharmacies and they laughed at her.

Laugh no more. What was not possible last year is now possible this year. That is called advancement in skincare science.

You do not have to melt, burn, or prick your face to look beautiful. There is a more refined method. Ours is truly cruelty free in every sense of the word. EOS Acne Advanced Serum works for you 24 hours a day.

A good skincare product is not about the size of the company. It is about which product gives better results.

Our Government approved GMP factory is GDP, GLP, and ISO Certified.

EOS: Eye Of Shangri-la

Tagline: Gateway to Beauty

# Formulation Philosophy

[ NATURE + SCIENCE ]
